Here's what engineers say about "CLIP/FILE" ...and the **eem** FILE SYSTEM

EARL L. STEELE, Chief, Semiconductor Research, MOTOROLA, INC... "Of particular interest is the file system which you have planned for the cataloging and filing of miscellaneous information...I am planning to use your index system."

E.S. JANKER, Manager, Military Field Service Tech, Training, BURROUGHS CORP..."The filing system you have suggested will be instituted and used for all literature we receive."

H.O. ASH, Aerophysics Dept., GOODYEAR AIRCRAFT CORP..."The filing system you have set up looks good...I intend to start using it for my personal product data information file."

I.S. PIERSON, Radio Engineer, STACKPOLE CARBON CO..."The 'Personal Filing System' is very good and will be exceptionally useful in finding new products as they are announced."

DICK TOLLISEN, Development Engineer, TEKTRONIX, INC..."The self-indexed filing system looks like a very good method of catalog filing. If we had been aware of your system five years ago (including Index) we probably would have adopted it. In fact, we may change over if we can get the secretary's help."

ROGER R. ADAMS, Assoc. Elec. Eng., BROOKHAVEN NATIONAL LABORATORY ..."The self-indexed filing system makes this master even more valuable since it will not become obsolete."

H.C. SIBLEY, Head, Electronic Development, GENERAL RAILWAY SIGNAL CO. ..."The filing system for product data looks like the answer to a long-standing problem. We are going to set up this system in our Section."

D.H. KINGSLAND, Engineer, FEDERAL TELECOMMUNICATION LABS..."I expect to use EEM constantly throughout the year, and look forward to setting up a filing system as per your number system."

THOMAS M. McKENZIE, Purchasing Dept., BENDIX AVIATION CORP..."The self-indexed filing system promises to provide an extremely helpful supplement to the directory, and we are, therefore, looking forward to the regular receipt of "Clip/File" product digest."

W. H. O'CONNELL, Purchasing Agent, SYLVANIA ELECTRIC..."Coupled with your unique "Clip/File" system...we will undoubtedly save many hours of valuable engineering and purchasing time."

L.S. JONES, Design Engineer, WESTINGHOUSE ELECTRIC..."Your idea in keeping the directory up-to-date avoids the problem which makes all other directories with which I am familiar useless after one or two months."

Set Up Your Own Personal **eem** FILE SYSTEM . . . The Industry's Only Uniform Method Of Keeping Up-To-Date Product Information At Your Fingertips.

Guide for locating products in your

eem FILE SYSTEM

The **eem** filing system is divided into 51 product sections. These 51 sections cover the electronic industry in its broadest aspects, and coincide with **eem**'s Catalog Section (White Pages). Use this **Index to file and locate specific products within each of these sections.**

TO FILE:

A. PRODUCT DATA FROM "CLIP/FILE"

In the upper right hand corner of each new product description is the **eem** Section number. File the items in the folders corresponding to these numbers.

B. PRODUCT LITERATURE FROM OTHER SOURCES

Merely check the following pages to determine the correct section number. Then, simply file in the appropriate folder.

TO LOCATE:

Any time you wish to refer to data in your file folders, use this Product To Section Index. It rapidly locates the proper folder.

Set up your own personal **eem** filing system, if you haven't already done so. Easy instructions can be found on the inside back cover of **eem**.

1100 Amplifiers, General Purpose
1200 Antennas & Accessories
1300 Audio Equipment & Accessories
1400 Cabinets, Chassis, Racks, Boxes, etc.
1500 Capacitors (All Types)
1600 Chemicals (Acids, Coatings, Paints, Varnishes, Lubricants, etc.)
1700 Circuits (Encapsulated, Embedded, Printed, Plug-In)
1800 Coils (Inductors, Toroids) Assemblies, Forms
1900 Communications Equipment (Broadcast, Television, Amateur, Facsimile)
2000 Computers & Associated Equipment
2100 Connectors (Plugs, Jacks, Receptacles, Sockets, Clips)
2200 Controls, Control Components & Systems
2300 Crystals, Equipment & Accessories
2400 Dials, Knobs, Handles, Panel Components
2500 Fabricated Mechanical Parts (Bearings, Cores, Gears, Magnets, etc.)
2600 Fans & Blowers; Air Conditioners; Environmental Chambers
2700 Filters, General Purpose
2800 Hardware (Bolts, Nuts, Screws, Washers, Terminals, Terminal Boards, etc.)
2900 Instruments, Electrical Measuring and Test
3000 Instruments, Graphic Recording
3100 Insulators, Insulating Material and Parts
3150 Manufacturing Sub-Contracting, Custom Fabrication
3200 Materials, Raw (Metals, Plastics, Glass, Rubber, Cloth, etc.)
3300 Medical Electronic Equipment
3400 Microwave, Radar Equipment, Components & Accessories
3500 Motors & Accessories
3600 Nuclear & Radiation Equipment, Components, Accessories
3700 Photoelectric Equipment & Components
3800 Photographic & Optical Equipment, Accessories
3900 Pilot & Signal Lamps, Lights & Accessories
4000 Power Supplies, Converters, Inverters, Batteries, etc.
4100 Production Machinery & Automation Equipment
4200 Publications (Textbooks, Reference Handbooks, etc.)
4300 Recording Equipment (Non-Audio Types)
4400 Rectifiers (Non-Tube Types)
4500 Relays
4600 Research, Development, Engineering, Services, etc.
4700 Resistors (All Types)
4800 Semiconductors (Diodes, Transistors)
4900 Servo Mechanisms & Components
5000 Studio Equipment
5100 Switches; Circuit Breakers, Fuses, Protective Devices
5200 Telemetering Equipment
5300 Thermal Devices, Thermocouples, Thermopiles, Thermostats, etc.
5400 Tools (Hand & Power); Supplies
5500 Transducers & Associated Equipment
5600 Transformers, Chokes, Reactors, etc.
5700 Tubes, Tube Parts, Shields, Inserts, etc.
5800 Ultra-Sonic, Sonic, Sub-Sonic Equipment
5900 Vibrators, Choppers, etc.
6000 Wire, Cable, Harnesses, Accessories
